## OBJECTIVE:-

Dedicated and detail-oriented Software Testing Intern with six months of hands-on experience in manual testing (QA). Seeking a position in a professional environment to apply my skills and knowledge, contributing to organizational growth while honing my abilities.

## PROFESSIONAL SUMMARY:-

- Proficient in regression and integration testing, ensuring software quality.
- Skilled in test case creation, execution, defect documentation, and reporting.
- Familiar with Scrum meetings, bug life cycle, and comprehensive software testing life cycle.
- Effective communicator, collaborating seamlessly with development teams and stakeholders.

## ROLES AND RESPONSIBILITIES:-

- Thoroughly analyze project documents, write comprehensive test cases, and prioritize testing activities.
- Execute test cases, report defects with clear priority and severity definitions, and collaborate with developers for issue resolution.
- Prepare detailed test plans, analyze bugs, and present weekly status reports to Project Managers
- Manage test data, participate in Scrum meetings, and ensure smooth project workflows.

## PROFESSIONAL WORK EXPERIENCE:-

**ABYM Technology, Noida**  
**Manual Tester (QA)**

**April 2023 to Present**

- Conducted in-depth analysis of business requirements and collaborated with clients to gather precise data.
- Tested web, desktop, and mobile-based applications, ensuring compatibility across various browsers.
- Participated actively in Scrum meetings, effectively communicated defect priorities, and resolved issues in collaboration with the development team.
- Prepared detailed bug reports, managed test data, and executed test scenarios for User Acceptance Testing.
- Provided regular status updates to the management team and clients, ensuring transparency and project alignment.

**PROJECTS UNDERTAKEN:-****1: Admissify (Website Based Application)**

- Collaborated with experts to guide global education seekers on visas, scholarships, and overseas studies.

**2 : Oncquest Laboratories Ltd. (Website Based Application)**

- Contributed to a pathology testing website, ensuring seamless user experience and comprehensive support for patients.

**QUALIFICATIONS:-**

- B.Tech, Future Institute of Engineering and Management, Kolkata, West Bengal, 64%
- Intermediate, Oriental college, Patna, Bihar, 68.4%
- MaharajGanj High School, All Compulsory Subjects, Patna, Bihar, 66.6%
